Education

B.Tech in Computer Science, Global Institute of Technology Jaipur 2023 – 2027

- CGPA: 9.0

Higher Secondary Education, Kendriya Vidyalaya Phulera 2020 – 2022

- Percentage: 90%

Technical Skills

GenAI: Generative AI, Prompt Engineering, ChatBot , RAG, AI Agents, LLM Integration

Programming Languages: Java, JavaScript, HTML, CSS

Frameworks: React, React Native, Tailwind CSS

Libraries & APIs: Express Js ,Google Map API ,OpenAI API , GroqCloud API

Tools & Platforms: Git , Github, VS Code, Firebase

Database: SQL , Vector Database

Experience

React Native Intern, at ASHPLANET SOLUTIONS July – August 2025

- Built a full-stack React Native (Expo) women's safety app name SURAKSHA with one-tap SOS, live location sharing, emergency alerts, and direct helpline access.
- Integrated Google Maps API to surface nearby safe locations within a 2 km radius, along with Firebase authentication, CRUD operations, admin support, and an in-app safety guide.
- Implemented real-time messaging via Twilio, an AI chatbot using the Gemini API, and safety utilities such as fake call simulation and location sharing without native build dependencies. TypeScript ,CSS.

Projects

ChatGPT Clone December 2025

- Built a ChatGPT-style Generative AI chatbot using HTML, CSS, JavaScript, and Node.js with Groq LLM, conversation memory, tool calling, and Tavily web search for real-time, context-aware responses.

Technologies: HTML, CSS, JavaScript, Node.js, Generative AI, Large Language Models (LLMs), Groq Cloud API, Tavily API, AI Agents, Tool Calling, Conversation Memory.

AI Agents (Email Support & Personal Finance) July 2025 – August 2025 January 2026

- Built an AI email support agent using LangChain to detect refund requests and process refunds via schema-validated tool calling.
- Developed a personal finance AI agent using Groq LLM with function calling to track income, expenses, and compute balances.

Technologies: JavaScript, Node.js, LangChain, Groq LLM API, Function Calling, Zod.

Company Knowledge Chatbot (RAG System) April 2024 January 2026

- Built a Retrieval-Augmented Generation (RAG) chatbot that answers user queries by retrieving relevant information from internal PDF documents using vector embeddings.

Technologies: Node.js, Groq Cloud API, Vector Database, Embeddings, RAG

Portfolio Website April 2024

- Designed and developed a responsive portfolio website using React to showcase projects, technical skills, and experience through reusable components and clean UI architecture.

Technologies: React , CSS.

Positions of Responsibility

- **Placement Coordinator:** Managed placement drives and helps in conducting smooth drives (2023-2025).
- **Event Organizer:** In college Sponser team for events ,Coordinated Codefiesta 3.0 Hackathon end-to-end.

Certifications

• **React Native Internship** — Ashplanet Solutions July – August 2025

• **NEC** — IIT Bombay, Led college team in NEC 2024 August 2024

• **Gyanteerth Java Training Program** — Java Online Training July 2024
